SUPPORT

House Bill 24-1004

Ex-Offenders Practice in Regulated Professions

Representatives Jennifer Bacon (D) & Shannon Byrd (D) and Senator James Coleman (D)

In determining whether an applicant for a state-regulated occupation is qualified to be registered, certified, or licensed (regulator), the bill allows the regulator to consider an applicant's conviction for a criminal offense if the criminal offense is a violent felony or misdemeanor. If an offense is not violent but would otherwise disqualify a person from becoming registered, certified, or licensed, the regulator of each profession is not permitted to consider the person's criminal conviction for the offense after a 3-year period has passed.

The bill allows an individual to petition a regulator to determine whether a criminal conviction will preclude the person from becoming registered, certified, or licensed prior to that person completing any other requirements for such credentialing.

The bill places the burden of proof for denial of an applicant on the regulator to demonstrate that denial based on the applicant's criminal conviction directly connects to potential performance in the occupation or profession for which the applicant seeks credentialing.

Senator Tony Exum (D)

The bill creates the Colorado workforce demonstration grants pilot program (pilot program) in the office of economic development (office) to provide grants to eligible workforce training providers to facilitate workforce training for eligible participants. The office administers the pilot program and awards grants from the Colorado workforce demonstration grants pilot program cash fund (fund), which is created in the bill.

Credential Quality Credential Apprenticeship Classification

Senators James Coleman (D) & Rachel Zenzinger (D) and Representatives Leslie Herod (D) and Eliza Hamrick (D)

Current law requires the department of higher education (department) and other higher education institutions to develop a framework for evaluating the quality of nondegree credentials. The bill formally recognizes the resulting quality and in-demand nondegree credentials framework (quality nondegree credentials framework) as the primary tool for assessing the quality of nondegree credentials offered in the state.

The bill requires the department to collaborate with various agencies to ensure the effective integration of the quality nondegree credentials framework within the state's education and workforce systems and to evaluate nondegree credentials offered through state-recognized programs to ensure the credentials meet the framework's quality standards. Annually, the department shall supply a list of nondegree credential programs that meet the framework's quality standards for inclusion in the Colorado talent report and a credential registry endorsed by the state.

The department shall engage state agencies, educational institutions, international organizations, industry associations, and other stakeholders to study and make recommendations about the adoption of the international standard classification of education (ISCED) as the state's standard framework for classifying nondegree credentials and ISCED's wider application in the state's education and workforce systems. The recommendations must include a process for assigning ISCED equivalency levels to nondegree credentials included in stackable credential pathways and apprenticeship programs. The bill requires the department to report its findings and recommendations on or before July 31, 2025.

Current law requires the department to create stackable credential pathways in growing industries. The bill requires the department to align the stackable credential pathways with appropriate ISCED equivalency levels on or before July 31, 2025.

The bill requires the office of future of work to coordinate with various agencies to determine ISCED equivalency levels for each apprenticeship program registered on and after July 31, 2025. Protections for Delivery Network Company Drivers

Representatives Stephanie Vigil (D) & Javier Mabrey (D) and Senators Nick Hinrichsen (D) and Kevin Priola (D)

The bill requires a delivery network company (DNC) operating in the state to provide various disclosures to its drivers and to consumers of the DNC regarding payments that a consumer makes to the DNC and the amount that the DNC then pays to a driver.

A DNC is prohibited from decreasing the amount the DNC pays a driver for a delivery task based on the amount of a consumer's tip for that delivery task, and a DNC must pay the driver all tips paid by the consumer. The bill specifies how a DNC may deactivate a driver from the DNC's digital platform, including:

- Requiring that a DNC disclose specified information about the DNC's deactivation policy and any revisions to the policy to drivers; and

- Creating internal account deactivation challenge procedures by which a driver may challenge the driver's deactivation and take steps, if any, to remedy a violation and become reinstated on the DNC's digital platform.

The bill requires that, when a DNC connects a consumer to a driver, the DNC prompt the consumer to encourage the consumer to ensure driver safety upon arrival, including ensuring a clear, well-lit, safe delivery path and properly securing all pets.

The bill requires that DNCs allow drivers at least 60 seconds to decide to accept a delivery task offer.

The division may investigate and impose fines against a DNC for violations of the bill. A consumer or driver aggrieved by a violation may file a civil suit against the DNC that committed the violation. The bill exempts a DNC from complying with certain requirements with respect to drivers who receive an annual federal form W-2 from the DNC.

The director of the division is required to adopt rules necessary to implement the requirements of the bill. Incentives for Post-Secondary Education

Representatives Shannon Bird (D) & Rick Taggart (R) and Senators Barbara Kirkmeyer (R) & Rachel Zenzinger (D)

The bill creates 2 separate state income tax incentives to encourage enrollment in institutions of higher education. For income tax years commencing on or after January 1, 2024, but prior to January 1, 2030, the first incentive is available to a graduate of any Colorado institution of higher education with a credential required or supported by certain jobs identified by the 2023 Colorado talent pipeline report, defined by the bill as "top jobs", in the amount of \$250 for the completion of a qualified program less than one year in duration, \$500 for the completion of a qualified program between one year and 2 years in duration, \$1,500 for graduates of an associate's degree program, and \$3,000 for graduates of a bachelor's degree program.

For income tax years commencing on or after January 1, 2026, but prior to January 1, 2030, the second incentive is available to an eligible transfer student attending a 4-year Colorado institution of higher education, in the amount of \$50 per credit hour transferred from either a 2-year Colorado institution of higher education or earned while under certain enrollment status in high school. The incentive is capped at 60 credit hours or \$3,000 and may only be awarded after the student completes at least 15 credits at the 4-year Colorado institution of higher education.

Notwithstanding the incentive amounts otherwise allowed for both incentives, if the revenue forecast prepared by either legislative council staff or the office of state planning and budgeting in June of any income tax year for which an incentive is allowed projects that the amount of excess state revenues for the state fiscal year that ends during the income tax year will be:

- At least \$500 million but no more than \$750 million, the amount of the incentive allowed is reduced by fifty percent for that income tax year.
- Less than \$500 million, the incentive is not allowed for that income tax year.

Fiscal Note: As a refundable tax credit, it decreases state revenue by about \$90 million per year in 2024-5, growing to \$139 million by 2026-7. Requires an appropriation of \$580,886 in 2024-5, \$492,887 in 2025-6.

Financial Incentives Expand Apprenticeship Programs

Representative Jenny Willford (D) and Senator James Coleman (D)

For income tax years commencing on or after January 1, 2025, but before January 1, 2035, **section 1** of the bill creates a refundable state income tax credit (tax credit) that an employer may claim if the employer employs an apprentice for at least 6 months during an income tax year and either has a registered apprenticeship program or is an employer-partner of a registered apprenticeship program. The amount of the tax credit is up to \$6,300 for 6 months of employment plus up to \$1,050 for each

consecutive additional month of employment, for a maximum of up to \$12,600 per apprentice per income tax year. An employer may not claim a credit for:

- More than 10 apprentices per income tax year;
- The same apprentice for more than 24 consecutive months; and
- An apprentice for months when the apprentice did not receive wages from the employer.

To claim a tax credit, an employer must submit an application for the reservation of the tax credit and an application to receive an income tax credit certificate to the state apprenticeship agency (SAA) in the department of labor and employment (department). The SAA shall review the applications for specified criteria to determine whether the employer qualifies for the tax credit and tax credit certificate.

Section 2 ends the state income tax credit for qualified investments made in a qualified school-to-career program for income tax years after December 31, 2024. **Section 4** creates the scale-up grant program in the department to start new registered apprenticeship programs or expand existing programs in Colorado. The scale-up grant program awards grants from the money in the scale-up grant fund, which is created in the bill. Eligible grant recipients include employers or entities operating an apprenticeship program and that:

- Plan to develop and register a new registered apprenticeship program; or
- Currently offer a registered apprenticeship program and plan to expand it.

The bill requires the department to collect specified data regarding the scale-up grant program and submit a report to specified committees of the general assembly.

Section 5 creates the qualified apprenticeship intermediary grant program in the department to support entities that demonstrate expertise in connecting employers or apprenticeship program participants to registered apprenticeship programs or in convening stakeholders to develop registered apprenticeship programs.

The bill requires the department to collect specified data regarding the qualified apprenticeship intermediary grant program and submit a report to specified committees of the general assembly.
