

# 2026 Legislative priority platform

Our 2026 legislative platform identifies three policy areas where we can make real change with other advocacy groups, community members, legislators, and state leaders.

---

## Advancing economic justice

Advocating for tax reforms that ensure corporations and the wealthy pay their fair share and reduce burdens on working Coloradans.

## Defending public programs

Supporting functional, person-centered public programs that improve health, meet changing needs, support the workforce, and lift Colorado's economy.

## Strengthening consumer rights

Protecting community members from exploitative business practices and working to break cycles of debt and poverty.
